SABRAO JOURNAL OF BREEDING AND GENETICS
ISSN 1029-7073
eISSN 2224-8978

The *SABRAO Journal of Breeding and Genetics* is an international journal of plant breeding and genetics research, and is the official publication of the Society for the Advancement of Breeding Research in Asia and Oceania (SABRAO). The journal was first published in 1969. Its objective has been to promote the international exchange of research information on plant breeding and genetics, by describing new research findings or ideas of a basic or practical nature. It also provides a medium for the exchange of ideas and news regarding members of the Society.

Priority is given to articles that are of direct relevance to plant breeders with an emphasis on the Asian region. Research articles, short communications, methods, reviews, commentaries and opinion articles will be accepted or invited for publication. Scientific contributions will be refereed and edited to international standards.

The journal mainly publishes articles for SABRAO members and it is strongly preferred that at least one author should be a current member of the society. However non-members may also publish in the journal. In 2016, the journal became an electronic journal with open access. Although a publication fee is charged for all articles, the journal operates on a not-for-profit basis.

SABRAO WEBSITE

<http://www.sabrao.org>

This website will contain information about the society, information about current officers and regional secretaries, upcoming congresses, and issues of the *SABRAO Journal of Breeding and Genetics*. In order to improve access for authors and researchers, electronic journal articles will be uploaded as soon as the journal issue is published.

ADVERTISEMENTS

Advertising will be accepted from Universities offering courses of interest to students from SABRAO countries and from book companies or computer software suppliers whose products promote the aims of the Society. International conferences may also be advertised. Prices are available from the Editorial-in-Chief.

SABRAO EDITORIAL BOARD

The SABRAO Editorial Board was established in 2012. The main duty of associate editors is processing of manuscripts for publication in the journal. This involves finding reviewers, communicating with authors, examining completed evaluations of manuscripts, checking revisions are thoroughly done, and editing. Each Associate Editor is acknowledged as the “communicating editor” for the relevant article when it is published. Other minor duties include being a contact point for SABRAO members in their respective countries, providing new ideas for the journal, and assisting in the preparation and compilation of special issues and conference proceedings.
